Earn a chance to win a **FlipKart e-Gift Voucher for Rs. 22000** to purchase a **16GB iPad Mini** (or item of your choice) by clicking here >>> [register for free on mdCurrent-India!](#)

mdCurrent-India publishes articles that highlight the most important clinical and practice management information relevant to India and how it will impact your medical practice. **Free** registration gives you access to all articles. Your registration will support the continuing publication of **mdCurrent-India**, helping doctors across India, and will also provide financial support to **FOGSI**, contributing toward our sustainability as a society.

Please also **pass this email along to any colleagues outside of FOGSI** that are practicing medicine, and ensure that they use the registration link in this email to give **FOGSI** credit! After forwarding this email to your colleague, send their email ID to publisher@mdcurrent.in, then once their registration is verified, **you will earn another chance in the drawing.**

Here are a few sample **mdCurrent-India** articles, written by Dr. Jeffrey Chapa.

- [Ways to prevent puerperal sepsis and reduce maternal mortality rates even in low-resource settings](#)
- [Practical advice on preventing maternal death due to postpartum hemorrhage](#)
- [Create a positive patient experience as the foundation for a successful medical practice](#)

Dr. Chapa is head of the section of Maternal-Fetal Medicine in the Cleveland Clinic Department of Obstetrics and Gynecology in Cleveland, Ohio, United States, and a member of mdCurrent Global Editorial Advisory Board. He is board-certified in obstetrics and gynecology, maternal-fetal medicine, and medical genetics and is a member of the American College of Obstetricians and Gynecologists as well as the Society for Maternal-Fetal Medicine.

Don't Wait! Register NOW for free for full access to all clinical and business of medicine articles – the **iPad Mini** drawing ends June 30, 2013!
