Welcome Message from Organizing Chairpersons

Dear Colleagues and Friends

Alone we can do so little. Together we can do so much.....Helen Keller

We welcome you to the **31st Annual Conference of AICC RCOG** hosted by the **West Zone in association with FOGSI committees and The Mumbai Obstetrics and Gynecological Society (MOGS) in Mumbai 1-3 September 2017.**

Many are not aware that the largest number of members of the **RCOG** outside the UK reside in India. With globalization of medicine, it is essential that policy makers and clinicians from major associations discuss important issues in the specialty. This will enhance the standard of care, help develop guidelines and create new ideas. This can only have a positive impact on women's health. Hence **RCOG** with **FOGSI** and **MOGS** have been joined by other organizations in bringing together various facets of care in Obstetrics and Gynecology in this conference.

Our Theme "**Be Global...Act Local**" aims at building up an international academic communication platform in the field of women's health to promote long term improvements in women's health development in India.

The **5 Pre Congress Workshops** on the first day along with main conference over 2 days will include besides other interesting sessions, **3 orations, 16 key note address, 8 panel discussions, 2 stump the experts** to dazzle you with scientific feast of evidence based medicine. We promise you not just a collection of lectures and discussions but an experience to remember...

We intend to encourage our young dynamic doctors in helping them to showcase their work in the free papers and poster presentations and also have dedicated sessions in the main conference. We also extend a hearty welcome to the newly elevated Fellows of the College.

In addition to stimulating your minds we hope to provide you with a gastronomic experience. **The Trident, Nariman Point** is going great lengths to ensure that you have a memorable stay.

It is an interesting time to be in **Mumbai**. The **Ganesh Festival** is unique for Mumbai and we hope you get some time to witness and take the blessings of **Lord Ganesh - remover of obstacles**, the patron of arts and sciences and the deva of intellect and wisdom.

Welcome To Mumbai - The Maximum City.....The city that never sleeps.
