Dr. Sakshi Nayar

Dear President and Secretary of member society of FOGSI,

We have immense pleasure in inviting you for the **“Surakshit Naritva” National FOGSI Conference** with the theme **WOMEN'S REPRODUCTIVE AND SEXUAL HEALTH- Ensure, Enable, Empower** scheduled on **29 Feb & 01 March 2020** at Hotel The Lalit, New Delhi.

The conference will highlight women's empowerment in matters of sexual and reproductive health. It intends to focus on emphasizing the need for practitioners and other service providers to ensure expanded basket of contraceptive choices and safe abortion services for the entire spectrum of their women. We also intend to focus on matters of sexual health, violence against women, medicolegal pitfalls in service provision, challenges in implementing programs, high medical and surgical risk cases for contraception and abortion etc.

We have planned interactive sessions, panels, keynotes, symposia, round tables, quiz, ASHA mentoring and most importantly the deliberations of policy makers: GOI on FP2020, WHO on SDG2030 etc. We also have a public forum on youth dialogue and perception and practice of SRH.

In brief the program includes well thought out scientific and video sessions with focus on clinical practice and a complete update on the subject including legal aspects.

Please join us and block your Dates.

We request you to inform all the members of your society to participate in this conference.

FOGSI will appreciate members who register early, and encourage your young consultants and post graduates to present papers and posters on the subject.

It is time to commit to a conference related to population stabilization and women's rights and make a difference to our practice and to the nation.

Warm Regards:

Congress President
President Elect FOGSI 2020
Dr. Alpesh Gandhi
