

# Global Conference on Updates in Obstetrics and Gynaecology

15<sup>th</sup>-17<sup>th</sup> July 2022 - HICC, Hyderabad

FOGSI *Presidential Conference*

# Invitation

Dear Friends,

Greetings from FOGSI

It's our great pleasure and honour to invite you to the Global Congress on Updates in Obstetrics and Gynaecology to be held in the city of Pearls, Hyderabad from 15<sup>th</sup> - 17<sup>th</sup> July 2022 at Hyderabad International Convention Centre.

Updating, exploring and integrating technology into our present practices and bringing forth futuristic and challenging issues into focus is the theme of this conference.

Eminent National and International faculty will provide delegates a platform to interact and exchange views on ongoing research and best practices for better Women's health.

Looking forward to welcoming you to Hyderabad and experience our amazing hospitality.

Best Regards

**Prof S Shantha Kumari**  
President FOGSI 2021-2022  
Treasurer FIGO 2021-2023  
Organizing Chairperson

**Dr Madhuri Patel**  
Secretary General, FOGSI  
Organizing Secretary

**Dr Vindhya T**  
Past President, OGS  
Organizing Secretary

**Dr Jamuna Devi G**  
Past President, OGS  
Treasurer

**Dr Krishna Kumari M**  
Past President, OGS  
Chairperson, Scientific

**Dr Aruna Suman B**  
Joint Secretary, FOGSI  
Co-Chair Scientific

**Dr Kiranmai Devineni**  
Co-Chair Scientific

**Dr Shobha B V**  
President, OGS  
Joint Organizing Secretary

**Dr Archana Singh**  
Secretary, OGS  
Joint Organizing Secretary

## Meet, Greet and Interact with our International faculty

**Prof Jeanne A Conry**  
USA  
President, FIGO

**Prof Sir Sabaratnam Arul Kumaran, UK**  
Past President, FIGO

**Prof Mary Ann Lumsden**  
UK  
Chief Executive Officer, FIGO

**Prof Michael Robson**  
Ireland  
Consultant OBGYN  
National Clinical Director  
Development & Implementation,  
National Electronic Patient Record for  
Maternity and Neonates, NMH

**Dr Ravi Chandran**  
Malaysia  
Past President, OG Society of Malaysia  
Past President, AFOG  
FIGO Regional Trustee Asia Oceania

## FOGSI Office Bearers 2021-2022

**Prof Shantha Kumari S**  
President, FOGSI  
Treasurer, FIGO

**Dr Hrishikesh Pai**  
President Elect

**Dr Alpesh Gandhi**  
Imm. Past President

**Dr Madhuri Patel**  
Secretary General

**Dr Archana Verma**  
Vice President

**Dr Basab Mukherjee**  
Vice President

**Dr Bipin Pandit**  
Vice President

**Dr Fessy Louis T**  
Vice President

**Dr Kawita Bapat**  
Vice President

**Dr Suvarna Khadilkar**  
Deputy Secretary General

**Dr Aruna Suman B**  
Joint Secretary

**Dr Parikshit Tank**  
Treasurer

**Dr Niranjan Chavan**  
Joint Treasurer

## ICOG Office Bearers 2021-2022

**Prof S Shantha Kumari**  
President, FOGSI

**Dr Uday Thanawala**  
Chairperson

**Dr Parag Biniwale**  
Vice Chairperson

**Dr Ashok Kumar**  
Secretary

## JOGI Team

**Dr Geetha Balsarkar**  
Editor-In-Chief, JOGI

**Dr Pradnya Changede**  
Secretary/Manager, JOGI

# OGSH Managing Committee

**Dr. Shobha B V**  
President

**Dr. Usha Rani V**  
Vice President

**Dr. Aruna Suman B**  
Vice President

**Dr. Archana Singh**  
Secretary

**Dr Lakshmi Chirumamilla**  
Joint Secretary

**Dr. Garuda Lakshmi**  
Joint Secretary

**Dr. Anantha Lakshmi P**  
Treasurer

**Dr. Sravanthi G**  
Co Treasurer

## Organizing Committee

### Organizing Chairperson

Prof S Shantha Kumari

### Organizing Secretaries

Dr Madhuri Patel  
Dr Vindhya T

### Treasurer

Dr Jamuna Devi G  
Dr Parikshit Tank

### Organizing Joint Secretaries

Dr Shobha B V  
Dr Archana Singh  
Dr Manjula Rao

### Scientific Committee

Scientific Advisor  
Dr Indira Devi P  
Chairperson  
Dr Krishna Kumari M  
Co-Chairpersons  
Dr Aruna Suman B  
Dr Kiranmai Devineni

### Advisory Committee

Dr Purandare C N  
Dr Krishnendu Gupta  
Dr Pratap Kumar  
Dr Sanjay Gupte  
Dr Rishma D Pai  
Dr Nandita Palshetkar  
Dr Narendra Malhotra  
Dr Jaideep Malhotra  
Dr P K Shah  
Dr Hema Divakar  
Dr Nozer Sheriar  
Dr P C Mahapatra  
Dr Iqbal Jehan Qader  
Dr Balamba P  
Dr Narasimha Reddy A

## Sub Committees

### Scientific Committee

Dr Lakshmi Chirumamilla  
Dr Garuda Lakshmi  
Dr Sree Durga P

### Workshop Committee

Dr Manjula Anagani  
Dr Mahita Reddy A  
Dr Chinmayee Ratha  
Dr Shoba B V  
Dr Jyothi Budi

### Conference Coordinators

Dr Aarthi Deendayal Tolani  
Dr Runa Acharya  
Dr Shweta T  
Dr Saroja K  
Dr Tanvir

### Catering Committee

Dr Maljini Nawinne  
Dr Padmaja A  
Dr Jayasree Reddy C

### Free Papers Committee

Dr Malathi P  
Dr Kamashree  
Dr Nisha  
Dr Suneela

### Cultural Committee

Dr Jayanthi Reddy L  
Dr Anantha Lakshmi P  
Dr Rajyasree D

### Reception Committee

Dr Aneel Kaur  
Dr Usha Rani V  
Dr Hima Deepthi

### Poster Committee

Dr Manjula Rao  
Dr Neelima Singh  
Dr Sravanthi G  
Dr Chandana L

## Conference Highlights

- ❖ Keynote Address
- ❖ Scientific Exhibition
- ❖ TSMC Credit Hours
- ❖ Orations
- ❖ Gala Dinner
- ❖ ICOG Credit Points
- ❖ Eminent International & National Speakers
- ❖ Interactive Panel Discussions
- ❖ Oral & Poster Presentations

LPS: Luteal phase support. ART: Assisted reproductive technology.  
† Schindler AE. Progestational effects of dydrogesterone *in vitro* and *in vivo* on human endometrium. *Maturitas*. 2009;65 (1):S3-S11. ‡ PubMed. Search results for Dydrogesterone on Pubmed.gov. Available from: <https://www.ncbi.nlm.nih.gov/pubmed/?term=Dydrogesterone>. Last accessed on 24.01.2020. \*Prescribing information of Duphaston<sup>®</sup>. Version: 6.0, dated 27<sup>th</sup> June, 2018. †† 30 refers to dosage of Duphaston in LPS as a part of ART treatment: 30 mg per day starting at day of oocyte retrieval and continuing upto 10 weeks (as per Duphaston PI). # Data on file.

**ABBREVIATED PRESCRIBING INFORMATION:**  
Dydrogesterone Tablets IP Duphaston<sup>®</sup>. LABEL CLAIM: Each film coated tablet contains Dydrogesterone IP 10 mg, Excipients q.s. Colour: Titanium dioxide IP. **INDICATION:** Progesterone deficiencies; Treatment of dysmenorrhoea; Treatment of endometriosis; Treatment of secondary amenorrhoea; Treatment of irregular cycles; Treatment of dysfunctional uterine bleeding; Treatment of pre-menstrual syndrome; Treatment of threatened miscarriage; Treatment of habitual miscarriage; Treatment of infertility due to luteal insufficiency; Luteal support as part of an Assisted Reproductive Technology (ART) treatment and Hormone replacement therapy. **DOSAGE AND ADMINISTRATION:** Dysmenorrhoea: 10 or 20 mg dydrogesterone per day from day 5 to day 25 of the menstrual cycle. Endometriosis: 10 to 30 mg dydrogesterone per day from day 5 to day 25 of the cycle or continuously. Dysfunctional uterine bleeding: When treatment is started to arrest a bleeding episode, 20 or 30 mg dydrogesterone per day is to be given for up to 10 days.

Secondary amenorrhoea: 10 or 20 mg dydrogesterone per day, to be given daily for 14 days during the second half of the theoretical menstrual cycle to produce an optimum secretory transformation of an endometrium that has been adequately primed with either endogenous or exogenous estrogen. Pre-menstrual syndrome: 10 mg dydrogesterone twice daily starting with the second half of the menstrual cycle until the first day of the next cycle. The starting day and the number of treatment days will depend on the individual cycle length. Irregular cycles: 10 or 20 mg dydrogesterone per day starting with the second half of the menstrual cycle until the first day of the next cycle. The starting day and the number of treatment days will depend on the individual cycle length. Threatened miscarriage: An initial dose of up to 40 mg dydrogesterone may be given followed by 20 or 30 mg per day until symptoms remit. Habitual miscarriage: 10 mg dydrogesterone twice daily until the twentieth week of pregnancy. Infertility due to luteal insufficiency: 10 or 20 mg dydrogesterone daily starting with the second half of the menstrual cycle until the first day of the next cycle. Treatment should be maintained for at least three consecutive cycles. Luteal support as part of an Assisted Reproductive Technology (ART) treatment: 10 mg Dydrogesterone three times a day (30 mg daily) starting at the day of oocyte retrieval and continuing for 10 weeks if pregnancy is confirmed. Hormone replacement therapy: Continuous sequential therapy: An estrogen is dosed continuously and one tablet of 10mg dydrogesterone is added for the last 14 days of every 28-day cycle, in a sequential manner. Cyclic therapy: When an estrogen is dosed cyclically with a treatment-free interval, usually 21 days on and 7 days off. One tablet of 10 mg dydrogesterone is added for the last 12-14 days of estrogen therapy. **CONTRAINDICATIONS:** Known hypersensitivity to the active substance or to any of the

excipients. Known or suspected progesterone dependent neoplasms (e.g. meningioma). Undiagnosed vaginal bleeding. Treatment for luteal support as part of an Assisted Reproductive Technology (ART) treatment should be discontinued upon diagnosis of abortion/miscarriage. Contraindications for the use of estrogens when used in combination with dydrogesterone. **WARNINGS & PRECAUTIONS:** Before initiating dydrogesterone treatment for abnormal bleeding the etiology for the bleeding should be clarified. Breakthrough bleeding and spotting may occur during the first months of treatment. If breakthrough bleeding or spotting appears after some time on therapy, or continues after treatment has been discontinued, the reason should be investigated, which may include endometrial biopsy to exclude endometrial malignancy. If any of the following conditions are present, have occurred previously, and/or have been aggravated during pregnancy or previous hormone treatment, the patient should be closely supervised. It should be taken into account that these conditions may recur or be aggravated during treatment with dydrogesterone and ceasing the treatment should be considered: Porphyria, Depression and Abnormal liver function values caused by acute or chronic liver disease. **PREGNANCY & LACTATION:** It is estimated that more than 10 million pregnancies have been exposed to dydrogesterone. So far there were no indications of a harmful effect of dydrogesterone use during pregnancy. Dydrogesterone can be used during pregnancy if clearly indicated. Breastfeeding: No data exist on excretion of dydrogesterone in mother's milk. Experience with other progestogens indicate that progestogens and the metabolites pass to mother's milk in small quantities. Whether there is a risk to the child is not known. Therefore, dydrogesterone should not be used during the lactation period. Fertility: There

is no evidence that dydrogesterone decreases fertility at therapeutic dose. **ADVERSE REACTIONS:** The most commonly reported adverse drug reactions of patients treated with dydrogesterone in clinical trials of indications without estrogen treatment are migraines/headache, nausea, menstrual disorders and breast pain/tenderness. Undesirable effects in adolescent population: Based on spontaneous reports and limited clinical trial data, the adverse reaction profile in adolescents is expected to be similar to that seen in adults. Undesirable effects that are associated with an estrogen-progesterone treatment (see also 'Warnings and Precautions' and the product information of the estrogen preparation): Breast cancer, endometrial hyperplasia, endometrial carcinoma, ovarian cancer; Venous thromboembolism; Myocardial infarction, coronary artery disease, ischemic stroke. Issued on: Date (20/11/2019). Source: Prepared based on full prescribing information (version 8) dated 20/Nov/2019. \* Registered Trademark of the Abbott Products Operations AG.
